New Program

Web Professional
Certificate of Achievement

Program Information
This program provides a foundation of web design and development skills for students interested in web professional careers including web developers, web designers, and webmasters. The student completing this program will position themselves for employment in web industries by acquiring tangible skills needed for planning, creating, developing, and maintaining websites for small to medium businesses. Students will be presented with various web technologies and administrative techniques, which provide well-rounded skills for increasing their employment potential.

Career Opportunities
This Web Professional Certificate of Achievement prepares students to become a webmaster, web developer, web designer, user interface designer, or project manager.

Upon completion of this program, the student will be able to:
- demonstrate a comprehensive understanding of the software, hardware, and networking tools necessary for publishing interactive, standards compliant, accessible websites and other digital media.
- demonstrate and analyze graphic design principles and how to apply them to meet the needs of a project and the limitations of technology.
- design and develop websites individually and as a member of a team demonstrating effective information architecture, user interface, and navigation.
- demonstrate the management and communication skills necessary to function productively in interdisciplinary teams and organizational structures.
- demonstrate knowledge of ethical and legal issues associated with creating websites.

Advanced Proficiency in English as a Second Language

Certificate of Achievement

Program Information
The Advanced Proficiency Program recognizes attainment of English language abilities to an advanced-low level of English in listening, speaking, reading, writing, and grammar skills. It demonstrates achievement of skills used in academic courses at the community college level as well as in the workplace community.

Upon completion of this program, the student will be able to:
- recognize cultural practices common to workplace situations in the United States.
- demonstrate communication skills necessary in the workplace.
- employ a variety of active reading strategies and adjust reading speed appropriately to address a full range of reading tasks including reading for inferences and bias.
- analyze and evaluate a variety of texts.
- cite outside sources correctly by using quotations, paraphrases, and summaries in writing
- assignments.
- compose and edit clear, well-developed, and organized essays on academic topics.
- revise and edit to achieve clarity of ideas and correctness of grammar, punctuation, and
- mechanics.
- use a variety of sentence types with sophisticated logical connectors.

New Courses

GCOM 281   Web Professional Essentials I   1 Unit
Same As: CISW 281
Prerequisite: None.
Corequisite: CISW 320 and GCOM 330
Hours: 18 hours LEC
The purpose of this course is to guide students toward professional development and provide the tools, essential knowledge, and skills needed to become successful in the web, graphic design, and computer science industries. Students would use industry standard methods for planning, customer management, time management, project analysis, problem solving, and web security. These business practices include web marketing, conflict resolution and critical thinking. This course will build a "cohort" team of students who move through the group of classes together for two years. They will support each other in their classes and through to the degree or certificate completion. Students may earn credit for CISW 281 or GCOM 281 but not for both.

GCOM 282   Web Professional Essentials II   1 Unit
Same As: CISW 282
Prerequisite: CISW 281 (Web Professional Essentials I) or GCOM 281
   (Web Professional Essentials I) with a grade of "C" or better
Hours: 18 hours LEC
This course will have student incorporate effective tools to guide them toward further professional development models for their success in the Web, Graphic Design, and Computer Science industries. Collaborative projects will be utilized for effective techniques in planning, customer management, time management, project analysis, problem solving, and Web marketing, in addition to conflict resolution and critical thinking techniques. Students are also required to apply for a web professional internship. Students may earn credit for CISW 282 or GCOM 282 but not for both.

Advanced Placement (AP) Credits, 2015-16

Students at Sacramento City College may be awarded units of credit for each Advanced Placement examination (CEEB) they pass with a score of 3, 4, or 5. Students will receive units/credits but not letter grades for these courses, and they will not be used in the computation of cumulative grade point average for graduation or transfer. After successful completion of 12 units at SCC, a student in good standing may submit their official CEEB Advanced Placement Test scores to the Admissions and Records Office for evaluation. Credit may not be earned for courses in which Advanced Placement credits have already been granted.

The following chart shows credit given at SCC to satisfy general education requirements and SCC equivalent courses. For transferring students, AP examination information is listed as it applies to meeting CSU General Education-Breadth or IGETC requirements. Students should check with their transfer institution about policies for using AP scores for admissions and/or their major. **Students who have earned credit from an AP exam should NOT take a comparable college course because transfer credit will not be granted for both**

* If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate.

** Students who pass AP Environmental Scienc3e earn 4 units of credit.   Tests prior to Fall 2009 may apply to either B1 + B3 or B2 + B3 of GE Breadth.   Fall of 2009 or later, those credits may only apply to B1 + B3.

*** If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in GE Breadth.

Course Identification Numbering System (C-ID), 2015-2016

The C-ID system is a statewide numbering system designed to identify comparable courses and facilitate articulation. Any community college course that bears a C-ID number signifies that it is equivalent in content, rigor, and student learning outcomes. Courses with C-ID numbers will be accepted at other participating community colleges or universities (only the CSU system is participating at this time). For example: C-ID CHEM 110 at this college (our CHEM 400) will be accepted by any other college that has been approved for the same C-ID CHEM 110 number.

Students should consult a counselor for specific information and assistance with evaluating course transferability. In addition, students should always go to www.assist.org to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.
